## HOME HEALTH CARE

Homecare does not have an age limit. More and more Americans are choosing to live independently and remain at home with the help of homecare services, which is mostly suitable for people who are:

- Coming out of serious illness, surgery or injury
- Transitioning from the hospital to the home
- In need of frequent care beyond what family and friends are able to provide
- More comfortable in their own home rather than a skilled nursing center

## WHY HOME HEALTH CARE

Care providers are able to assist in client needs while maintaining your peace and comfort within the home setting. We are able to provide services such as:

- Companionship
- Medication reminders
- Meal preparation
- Grooming assistance
- Transportation
- Bathing, dressing and grooming
- Ambulation
- Transfers and repositioning
- Live-in service
- Respite service
